*ENGL110 and the Mathematics requirement must be completed by the time a student has earned 60 credits. Students who transfer into the College of Arts & Sciences with 45 credits or more must complete these requirements within two semesters.

1. University Breadth requirements must total 12 credits (3 cr. from each group). Each group within University breadth must represent a different subject area and may not be cross-listed. No courses used for University Breadth may be from the student's major department. A lab course is not required to satisfy the University Group D requirement. The minimum grade for all University Breadth Courses is C-.

2. If two courses in a group (A, B, C or D) have been taken in the same department or program, a third course cross-listed with that program will not satisfy the distribution requirement of "at least two programs." Up to 3 credits from each of the University Breadth Requirement categories may be used to simultaneously satisfy the College of Arts and Sciences Breadth Requirements. The minimum grade for all College of Arts and Sciences Breadth courses is C-.
